In Memory of Geo. O. Trexler.
Again our tears are falling, as we lay our comrade to rest,
Again on God we are calling, can it be for the best?
For we think of the widow weeping, alone in her silent home,
While the orphan children are wailing, father will he not come home,
O! Father forgive us for doubting, in an hour like this one,
When it seems so hard to say, Only Thy will be done,
And yet we must believe, as we lay our brother to rest,
We are in thy hands O! God, and thy will must be best,
But chide us not as our tears are falling down our wan cheek today,
For we loved our comrade and brother, only as may men sometimes may.
Kind as a husband, and a father loving, a friend to us all,
Forgive us O God! it seems so hard, to close over him the dark pall.
A. F. BEELEER.

Crosslin Case Dismissed.

EXCITING AUTO RACE WITH HOME AS PRIZE

Scottsbluff Star-Herald.—Ray Crume of Scottsbluff and Darwin E. Taylor of Minatare, indulged in a rather exciting automobile race from Mitchell to the land office at Alliance one day last week in a contest to see who would place a filing on a valuable tract of land in Section 10-22-52, which had been recently opened for settlement. Crume got his water right papers from the Reclamation office in Mitchell shortly before noon and immediately left for Alliance with Taylor in pursuit and only a few minutes behind. When they reached the flat near Alliance Crume had a safe lead and pounded along like an express train. In the meanwhile Taylor was keeping the throttle wide open, and the Goddess of luck seemed to somewhat be on his side, for when Crume reached the railroad track a freight blocked his progress, allowing Taylor to catch him. Taylor noticed autos on the opposite side of the track all waiting for the freight to move out of the way. Taylor jumped from his car, crawled in under the freight, gave a waiting jitney driver \$5 to take him to the land office, in "nothing flat" time and when Crume finally reached the land office, Taylor had his filing and was leaving with a broad grin covering most of his face. Crume took his defeat rather philosophically, merely saying: "He had a better car than I did or he would have never made it."

A Timely Warning

ELEVEN well-known automobiles have advanced in price within the last ninety days.

The Maxwell Company has not increased their prices. We do not know what their plans are, but we do know *and you know* that materials entering into the construction of *good* automobiles now cost from 20 to 300 per cent more than they did six months ago.

Nothing is to be gained by delay. Much may be lost.

Not only may you lose several dollars in the purchase price, but you are sacrificing the enjoyment, the relaxation, the health-giving properties—everything, in fact, that makes motoring the favorite pastime of the nation.

We urge you to come in and investigate the Maxwell.

Or, we will refer you to any number of Maxwell owners and let them tell you their own story in their own way.

They will tell you what they have told us. That the Maxwell is good-looking—that it is powerful—that it is comfortable—that it is economical—in short, that it is the best investment they ever made. They will tell you more and they will tell you gladly and freely.

That's the way they feel toward us and the Maxwell Car.

Whatever you do, don't put this off. We have a few cars on hand and can take orders for immediate or future delivery—at present prices. If you can't come in today, phone us for a Maxwell demonstration.
